

Introduction to Supporting Physics Teaching for Technicians

Email: science@cleapss.org.uk

Tel: 01895 251496

This one-day practical course is designed for science technicians who are new and/or inexperienced with the physics equipment used in science departments.

The objective of this course is to enable technicians to gain some of the basic skills required to support physics teaching. More experienced technicians may pick up some useful tips.

Topics covered include:

- Basic electricity
- Setting up a simple circuit to test fuses, leads, etc
- Using a multi meter
- Soldering techniques
- Looking at 'hazards' in physics
- Recognising physics apparatus
- Setting up physics equipment & identifying potential problems

Title: Introduction to Supporting Physics teaching for technicians

For: Technicians
