

# D & T Workshop Maintenance

Email: [dt@cleapss.org.uk](mailto:dt@cleapss.org.uk)

Tel: 01895 251496

This practical one-day course will provide D & T Technicians with information on the essential maintenance of hand tools, portable electric powered tools and fixed machines.

## Topics covered include:

- The course will be practically based giving access to the machines to be covered.
- Sharpening of hand tools, including the use of grinding machines and oilstones
- Simple visual checks and maintenance of portable electric hand tools and the cleaning, lubrication and checking of workshop machines
- Basic sharpening of cutting tools for some workshop machines will be included, but **not** the specialist work needed to sharpen circular saw blades, band saw blades and blades of wood planning machines, or the fitting of grinding wheels

**Title: D&T Workshop Maintenance**

**For: D & T Technicians**
