

Managing practical work during 2020/21

Email: science@cleapss.org.uk

Tel: 01895 251496

We have developed a new virtual inset session covering the latest CLEAPSS guidance on how best to manage practical work during the COVID-19 pandemic.

The course will focus on how practical is possible, and also how to manage issues which are created by the pandemic. The course is led by those who wrote and manage the CLEAPSS COVID-19 guidance, so it will also provide a greater insight into the reasons behind the latest guidance. It will also include time for a Q&A.

The 1.5hr training sessions can be run at any time of the day but are ideal for Twilight sessions.

The course costs £250 and can have a maximum of 30 participants.

This course is suitable for:

- Science departments (multiple schools may join together to split the cost of a session as long as they have a prior relationship i.e. staff will know each other, have worked together in the past)
- Safety Officers from a Multi Academy Trust or Local Authority
- Heads of Science from a Multi Academy Trust or Local Authority
- Technician Networks

The course will be delivered via Zoom.

You will need to provide a register of participants 48hrs in advance, and all participants must set their Zoom account to the name on the register otherwise they will not be admitted to the training session.

Course Cost: £250

Maximum Number of Participants: 30

Duration: 1.5 hours

Please contact us to discuss organising a course.
