

# Health and Safety for D&T Technicians

## Sci Tech conference, Birmingham 2023

Email: [dt@cleapss.org.uk](mailto:dt@cleapss.org.uk)

Tel: 01895 251496

This one-day course is designed for technicians who work in D&T facilities in schools. It explores roles and responsibilities, risk assessment and the safe setup and use of equipment. **To book a place contact CLEAPSS.**

Note: this course is running as part of the [Sci Tech conference](#) at The University of Birmingham School in Selly Oak on June 30<sup>th</sup>. Participants attending this course will also have access to the conference including breakfast and lunch.

The course involves a mixture of presenter input, discussion, and tasks.

The focus will be on reducing the chances of accidents involving staff and students to a minimum.

During the course the following items will be covered: -

- The law and health and safety. What the law requires of employers, teachers, and technicians.
- Exploration of basic principles relating to health and safety.
- Health and safety regulations and how they affect Design and Technology.
- Requirements for D&T rooms and workshop machines in respect of health and safety.
- Organising and managing risk assessment in Design and Technology, including the customisation of model risk assessments.
- Use and maintenance of local exhaust ventilation.
- Aspects of using and guarding for machines in common use.

There will also be ample opportunities for participants to raise questions about their own concerns.

Participants who attend the whole course will receive a CLEAPSS Certificate of Attendance.
