

Safety with chemicals for technicians

Email: courses@cleapss.org.uk

Tel: 01895 251496

This one-day practical course is designed for technicians who are taking on/have responsibility for setting up chemistry practical activities.

The aims of the course are to explore how to use CLEAPSS information to develop knowledge of how to set up school practicals safely, how to manage the waste and to gain confidence in dealing with emergencies with chemicals.

Topics covered include:

- CLEAPSS support for working safely with chemicals
- Necessary control measures
- Working with chemicals safely for school practical work
- Waste and recycling: An introduction
- Chemical emergencies and the need for training: spills practical and fire demonstrations

Please note: This course is currently under development and some content is subject to change.

Duration: 1 day

Times: Start 9.00am; Finish 4.00pm (approx.)
